CENTRAL UNIVERSITY OF RAJASTHAN

University Level Test for Admission to Ph.D. Programmes 2026-27

There are certain seats vacant in the Ph.D. programmes in various departments after the second phase of Ph. D. Admission 2026-27.Details of these vacant seats are already published on the University website. The university has decided to conduct a Department-wise University Level Test to fill these vacant seats.

Following are the general instructions for conducting the test to fill the vacant seats:

1) The dean of the school will be the overall in-charge of this examination and planning.
2) Multiple Choice Questions (MCQs) to be prepared by the respective departments based on the syllabus of UGC/CSIR-NET or other relevant entrance exam of that subject.
3) The venue of the test will be the classrooms in respective schools identified by the Dean of the School. Invigilation duties to be assigned by the Dean of the School.
4) The University level test would comprise of:
   (i) Written Test (70% weightage)
   (ii) Interview/Viva-voce (30% weightage)
5) **Written Test:** Test should be for 1hr duration, from **10:30 - 11:30 AM** on **19th November, 2026**. There will be 50 MCQs and each correct answer carries two marks. Maximum marks of the test will be 100 marks. The weightage of the written test will be 70%.
6) **Interview/Viva-voce/Viva-voce:** Interview/Viva-voce of those candidates who have appeared in the written test will be conducted immediately after the written test by the Departmental Admission Committee. The weightage of the Interview/Viva-voce will be 30%.
7) The marks of written test and Interview/Viva-voce are to be submitted to the Central Admission Committee the same day in prescribed format immediately after the completion of Interview/Viva-voce.
8) All documents to be submitted to Chairman, Central Admission Committee along with the signed written and Interview/Viva-voce marks.
9) The result will be published on the University website.

Note:- Department-wise University Level Test will be conducted for the following Departments: **Pharmacy, Electronics and Communication Engineering, Computer Science and Engineering, Biomedical Engineering, Computer Science, Data Science & Analytics, Architecture, Atmospheric Science and Chemistry, based on the vacancies.**
