Professional Experience

- **MeasureOne, Ahmedabad, Gujarat, India,**
Software Developer
Apr '22 - Current
 - Handled Three teams: Worked with onboarding team, then started handling three teams at once, including parsing, scraping, and entity search due to excellent performance.
 - Improved data gathering: Enhanced optimized code for data collection from websites, reducing gathering time by 25%.
 - Data parsing and storage: Parsed data from various formats (pdf, images) and unified it according to customer requirements. Defined pipelines, reducing processing time by 50%.
 - Mentored Interns: Trained potential future employees, assigned tasks, and supervised their onboarding process and internship.
 - Database Management: Optimized data handling during retrieval, reducing memory and query rates by 15%.
- **Jio Platforms Ltd., Navi Mumbai, Maharashtra, India,**
Software Developer Intern
Jan '21 - Jul '21
 - Designed APIs for Supply Chain Management project.
 - Transferred to new Database system: Improved data storage using NoSQL solutions for reduced memory overhead and better integration with JavaScript.

Skills Summary

- **Languages:** JavaScript, C++, Python, HTML, CSS, Java
- **Frameworks:** NodeJS, AngularJS, React, Puppeteer, Standard Template Library, scrapy, Selenium
- **Tools:** GIT, MySQL, MongoDB, GitHub, PostMan, LaTeX
- **Platforms:** Linux, Mac, Windows, AWS
- **Soft Skills:** Leadership, Collaborative Working, Technical Writing, Public Speaking, Time Management

Education

- **Sardar Vallabhbhai National Institute of Engineering, Surat,**
Master of Technology - Computer Engineering
CGPA: 7.65 Jul '19 - Jul '21
- **Government Women Engineering College, Ajmer**
Bachelor of Engineering - Computer Science and Engineering
CGPA: 7.8 Aug '14 - May '18

Achievements

- Submitted research paper entitled *"PPSE Privacy Preservation and Security Efficient AKA Protocol for 5G Communication Networks"* in IEEE International Conference on Advance Networks and Telecommunication Systems (ANTS) 2020.
